

SKU GL/FLASH · HIGH VISIBILITY YELLOW

FLASH GLOVE

EN 388
3131

CE
EN 420

DESCRIPTION

The Flash Glove is a high-performance seamless mechanical glove designed for superior grip, dexterity and comfort across demanding industrial applications. Featuring a polyester liner with a PU and nitrile water-based micro foam palm coating, it provides excellent liquid repellency, mechanical resistance and flexibility for all-day wear. Designed for general handling, electronics, automotive assembly, forklift and crane operation, and small parts handling. Available in high-visibility yellow for environments where visibility and performance matter.

FEATURES

- PU & nitrile water-based micro foam coating enhances grip, liquid repellency and mechanical resistance
- Seamless polyester liner provides flexibility, comfort and dexterity
- High-visibility fluorescent yellow liner improves visibility in low-light environments
- Excellent grip performance – ideal for handling tools, components and machinery
- Lightweight construction reduces hand fatigue during extended use
- Abrasion & mechanical resistance for demanding industrial environments
- Secure polyester wrist cuff ensures a comfortable fit

COMPLIANCE & CONFORMITY

- Complies with CE type examinations EN 420 for innocuousness
- EN 388 certified for Mechanical Risks (3,1,3,1)
- Complies with directive 89/686/EEC
- Quality System certified to ISO 9001:2008
- Environmental Management System certified to ISO 14001:2015
