DESCRIPTION

Vulcan Workwear's 15 Cal Arc Suit is a high-performance, flame-retardant jacket and trousers combination designed to provide maximum protection against electrical arc hazards. This suit meets the highest standards of safety and durability, making it an ideal choice for workers in high-risk industries.

JACKET FEATURES

- Concealed YKK brass zipper with flame retardant hook-and-loop closures
- Three pockets with mitred flaps and FR hook-and-loop closures
- 50mm FR reflective tape on arms for enhanced visibility
- 15 cal/cm² rating branding for easy identification
- Full triple needle topstitching for enhanced durability

TROUSER FEATURES

- Concealed YKK brass zipper with FR hook-and-loop closures
- Side swing pockets for convenient storage
- 50mm FR reflective tape on legs
- Full triple needle topstitching; FR knitted rib cuffing
