

GRIP & HANDLING GLOVES

CRAYFISH GLOVE

EN 388
3143

DESCRIPTION

The Crayfish Glove provides exceptional grip and protection for hands when handling slippery or abrasive objects. The diamond groove rubber coating on a cotton base offers reliable defence against cut and puncture hazards.

FEATURES

- Diamond groove rubber-coated palm and fingers for enhanced grip and protection
- Cotton liner for comfort and breathability
- Composite knit wrist for a secure fit

COMPLIANCE & CONFORMITY

- Complies with EN 388 (3,1,4,3) for mechanical risks

SPECIFICATIONS

STYLE	Rubber-coated palm and fingers
LINER	Cotton
CUFF	Composite knit wrist
SIZES	Large
CERTIFICATION	EN 388 (3,1,4,3) Mechanical Risks

Shrinkage may occur after washing.

CARE & MAINTENANCE

- Remove excess contaminants from gloves before taking them off
- Wash in mild detergent at up to 40°C; avoid bleaching or oxidising ingredients and fabric softeners
- Use the mildest possible cleaning conditions to maximise glove life
- If contaminants cannot be removed, use the gloved hand to ease off each glove, avoiding bare-skin contact
- Dry at a temperature not exceeding 70°C – drying may cause felting on the fabric surface

WARM WASH

NO CHLORINE

DO NOT TUMBLE DRY

NO IRON

DO NOT DRY CLEAN
