

SASOL SPEC · FLAME RETARDANT · ACID RESISTANT

D59 BLAZE FLAME & ACID SUIT

SANS
1387

DESCRIPTION

Protect yourself from hazardous chemicals and flames with the proudly South African made D59 Blaze Flame & Acid Jacket and Trousers. Made from 100% cotton — a natural, breathable fabric — this garment provides reliable protection while keeping you cool and comfortable, with robust construction and chemical-resistant treatment built to last in demanding work environments.

JACKET FEATURES

- Collared jacket with internal hanger loop
- High-visibility flame retardant reflective tape on arms
- Concealed brass YKK zip closure
- 2 open waist pockets and 1 left breast pocket with mitred flap and concealed press stud
- Side slits for comfortable fit over waist; elasticated sleeve cuffs
- Triple needle topstitched seams; FR & acid resistant embroidery on arm

TROUSERS FEATURES

- All seams triple needle topstitched for durability
- Flame retardant reflective tape on legs
- Concealed brass YKK zip and metal nickel button closure at waist
- Two front swing pockets, rear mitred open pocket, tool pocket on right leg
- Inner elasticated waist with 7 belt loops

CARE & MAINTENANCE

- Wash in cold water (below 30°C) using a mild detergent
- Do not wring or twist; hang to dry away from direct sunlight and heat
- Store in a cool, dry place; avoid folding or creasing
- Avoid bleach, harsh chemicals or abrasive cleaners — they can affect flame-resistant properties
- Do not tumble dry
- Regularly inspect seams, stitching, tape and fasteners; repair or replace damaged garments immediately

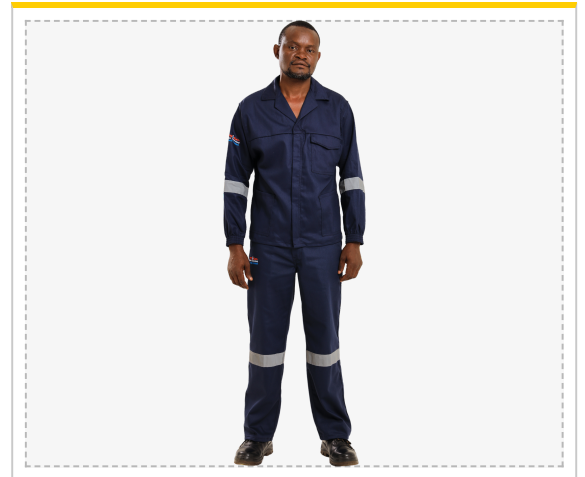

COLD WASH

NO BLEACH

DO NOT TUMBLE DRY

COOL IRON

DRY CLEANABLE
