ESKOM D59 FLAME CLEAN CONDITION SUIT

SABS
D59

DESCRIPTION

The White D59 Flame Retardant Clean Condition Suit is a durable industrial workwear garment designed for environments where flame resistance and visibility are essential. The suit consists of a long sleeve D59 Flame jacket and matching trousers manufactured from SABS mark bearing D59 flame retardant cotton fabric, with reinforced triple needle stitched seams and bar-tacked stress points.

JACKET FEATURES

- V neck for comfort and professional appearance
- Eskom embroidery on chest
- Two open lower waist pockets for convenient storage
- Silver 48mm flame retardant reflective tape positioned 10cm below the underarm
- Triple needle top-stitched seams and bar-tacked stress points

TROUSER FEATURES

- Silver 50mm flame retardant reflective tape on legs
- Triple needle top-stitched seams and bar-tacked stress points for long-term durability
