# ESKOM D59 LADIES TROUSERS

SABS  
D59

## DESCRIPTION

The Navy D59 Ladies Flame Retardant Trouser is a durable industrial garment designed to provide reliable protection and comfort in environments where flame retardant clothing and visibility are required. Manufactured from SABS mark bearing D59 flame retardant cotton fabric, with reinforced triple stitched seams, bar-tacked stress points and an elasticated back waist for comfort and flexibility.

## GARMENT FEATURES

- Ladies fit design for improved comfort and movement
- Concealed chunky plastic zip fly with button closure
- Elasticated waistband at the back for improved fit and flexibility
- Front swing pockets with reinforced double needle top stitching
- Hip pockets with rounded corners for durability
- Triple needle top-stitched seams and bar-tacked stress points

## VISIBILITY & BRANDING

- Silver 48mm flame retardant reflective tape positioned approx. 10cm above the knee
- "Zero Harm - We make it happen!" embroidery on left hip pocket
- Eskom embroidery on right hip pocket
