

TIG WELDING & PRECISION HANDLING

GOATSKIN 15CMC GLOVE

EN 388
2243

CE
0075

DESCRIPTION

The Goatskin 15CMC is a premium full grain goatskin leather glove designed for TIG welding and driver glove applications. Goatskin is among the most durable leathers available — the natural lanolin content keeps the glove soft and supple while delivering excellent wear resistance and dexterity. Finished with an extended chrome split leather cuff for additional hand and wrist protection.

FEATURES

- Premium full grain goatskin leather for softness, suppleness and durability
- Natural lanolin content keeps the leather soft over extended use
- Fourchette cut with keystone thumb for improved fit and dexterity
- Syntax thread stitching for strength
- Extended chrome split leather cuff (15 cm) for additional protection
- Unlined for maximum feel and dexterity

APPLICATIONS

TIG WELDING

DRIVING

PRECISION HANDLING

Stored correctly in a cool, dry place, physical properties remain unchanged for up to three years.

CARE & MAINTENANCE

- Under no circumstances should leather gloves be submerged in water
- Gently wipe the leather glove with a clean cloth
- Inspect gloves thoroughly before use to ensure no damage is present
- Prepare a lukewarm water solution using mild detergent
- Allow gloves to dry naturally to reduce stiffening
- Store in a cool, dry place
