

WELDING & HEAT PROTECTION

GOLD WRIST LENGTH GLOVE

EN 388
3111

CE
0075

DESCRIPTION

The Gold Wrist Length Welders Glove is a premium chrome leather welders glove designed for welding, smelting and high-heat industrial applications. An extra-thick black chrome leather palm protects the fingers, palm and thumb, with reinforcement around the thumb area and a golden yellow chrome leather back for durability. Full Kevlar stitching provides extra heat resistance, while the wrist length gauntlet cuff offers protection without restricting movement.

FEATURES

- Extra-thick black chrome leather palm (0.8 mm) for additional heat protection
- Reinforced thumb area for added wear resistance
- Golden yellow chrome leather back for durability
- Full Kevlar stitching for extra heat resistance
- Black leather piping sewn into seams protects stitching from welding sparks
- Fleece-lined palm and denim-lined collar for comfort
- Wrist length gauntlet cuff for protection with freedom of movement

CERTIFICATION	EN 420 & EN 388 (3,1,1,1) · CE 0075 · ISO 9001 & 14001

CARE & MAINTENANCE

- Under no circumstances should leather gloves be submerged in water
- Gently wipe the leather glove with a clean cloth
- Not recommended for use with water, oil or grease
- Prepare a lukewarm water solution using mild detergent
- Allow gloves to dry naturally to reduce stiffening
- Store in a cool, dry place away from direct sunlight
